# Contents

Preface ..... xvii
Companion Web site ..... xix
Acknowledgments ..... xxi

**CHAPTER 1 Set basics: Your first barbecue ..... 1**
Job descriptions of the lighting crew ..... 1
Director of photography ..... 1
Gaffer ..... 2
Best boy electric ..... 3
Electricians ..... 3
Rigging crew ..... 4
The fixtures guy ..... 4
Generator operator ..... 4
Grip department ..... 5
The company ..... 6
Production staff ..... 6
The director's team ..... 7
Camera department ..... 8
Sound department ..... 9
Locations ..... 9
Transportation ..... 10
Art department ..... 10
The general public ..... 11
Block, light, rehearse, tweak, shoot ..... 12
The work world ..... 13

**CHAPTER 2 Preproduction planning: Lighting package, expendables, and personal tools ... 15**
Preproduction planning ..... 15
Scouting locations ..... 16
Production meetings ..... 16
Equipment package ..... 17
The load-in ..... 18
The production van ..... 20
Expendable supplies ..... 20
Gels and diffusion ..... 23
Electrical expendables ..... 23
Tools and personal gear ..... 26
Tool belt ..... 26

Meters ..... 29
Other hand tools ..... 29
Personal gear ..... 30

**CHAPTER 3 Light fixtures: The basic tungsten arsenal ..... 31**
Tungsten lamps ..... 31
Fresnels ..... 33
Fresnel beam ..... 35
Fresnel accessories ..... 38
20 and 24k tungsten Fresnels ..... 40
The lamp and its installation ..... 41
Soft lights ..... 42
"Bag" lights ..... 44
Open-face lights ..... 44
Prime fixtures ..... 45
Broads and nook lights ..... 46
Light kits ..... 46
PAR lights ..... 47
PAR lamps ..... 47
Par cans ..... 50
Molepars, master lite, cine-queen ..... 50
Par arrays ..... 50
Axially mounted par fixtures ..... 52
Ellipsoidal reflector spotlights ..... 53
Lamp adjustment and installations ..... 57
Ellipsoidal spotlight accessories ..... 58
Dedolights ..... 62
Beam projectors ..... 63
Area lights and backing lights ..... 64
Chicken coops and space lights ..... 64
Scoop lights and Skypans ..... 65
Cyc strips, ground rows, and borders ..... 65
Small fixtures ..... 67
Screw-base fixtures ..... 67
MR16 lamps and accessories ..... 68
Stick-up kits ..... 69

**CHAPTER 4 Stands and rigging ..... 71**
Stands ..... 71
Baby stands ..... 71
Junior stands ..... 75

Offsets, side arms, extensions, and right angles ..... 76
Using stands ..... 76
Crank-up and motorized stands ..... 77
Grip stands ..... 79
Booms ..... 82
Stand maintenance ..... 83
Rigging hardware ..... 83
Baby and junior nail-on plates ..... 83
Set wall mounts ..... 84
Set wall bracket ..... 84
Clamps ..... 84
Grids and green beds ..... 87
Other rigging hardware ..... 88

**CHAPTER 5 Lighting objectives and methods ..... 91**
Objectives ..... 91
Visibility (or selective visibility) ..... 91
Naturalism ..... 92
Composition ..... 92
Mood ..... 93
Time constraints ..... 94
The process of formulating a lighting strategy ..... 94
Key light: Lighting the actor's face ..... 96
The lighting triangle ..... 102
Fill ..... 102
Backlights, kickers, and hair lights ..... 103
Lighting the acting positions ..... 104
Back cross-keys ..... 105
Lighting the space and the background ..... 107
Ambience ..... 107
Backdrops ..... 107
Quantifying brightness and contrast ..... 108
Exposure ..... 108
Foot-candles ..... 108
F-stops ..... 108
Taking readings with an incident light meter ..... 109
Contrast, latitude, and the total value ..... 112
Spot meters ..... 115
Light level ..... 117

**CHAPTER 6 Manipulating light: Tools, techniques, and the behavior of light ..... 119**
Color ..... 119
White balance ..... 119
Color-temperature meter ..... 125
Color-correction gels ..... 126
Theatrical gels for tints ..... 129
Brightness ..... 132
Methods of control ..... 132
Falloff: Your friend, the inverse square law ..... 133
Dimmers ..... 134
Shape, pattern, and form ..... 136
Making cuts and patterns ..... 136
Soft light ..... 139
Diffusion ..... 142
Other ways of making soft light ..... 143
Movement ..... 146
Flicker effects: Television screen, flame, and fire ..... 148
Other moving light effects ..... 149

**CHAPTER 7 Electrician's set protocol ..... 151**
Set protocol ..... 151
Staging area ..... 151
Lighting the set ..... 151
Practicals ..... 158
Photoflood bulbs and PH bulbs ..... 159
Household bulbs ..... 159
Candella base bulbs ..... 159
Mushroom floods: R-40 and others ..... 159
MR-16 ..... 159
Linestra tubes ..... 159
Controlling practicals with dimmers ..... 160
Wiring small fixtures ..... 161
Stingers and cabling ..... 162
Circuit balance and capacity ..... 162
2k Plugging policy ..... 163
Cables crossing the set ..... 163
Cables crossing work areas ..... 163
Appropriate length ..... 164
Preventing "Kick-Outs" ..... 164
Repatching ..... 164
The gak package ..... 165

Labeling stingers and power cords ..... 165
Labeling dimmer settings ..... 165
Coiling stingers and cable ..... 166
Safety ..... 167
Ladders ..... 167
Parallels ..... 167
Working aloft ..... 167
Protecting floors ..... 168
Sprinkler systems ..... 168
Smoke, fire, and other bad smells ..... 168
Aerial lifts (condors and scissor lifts) ..... 169
The Wrap ..... 169
Coiling feeder cable ..... 170
Inventory ..... 170

**CHAPTER 8 Light fixtures: The HMI arsenal ..... 171**
Metal halide arc lights: "HMI" ..... 171
HMI fresnels ..... 172
HMI pars ..... 175
HMI "open-face" lights ..... 179
Accessories ..... 180
Small fixtures ..... 180
Tungsten-balanced arc-discharge lights ..... 183
HMI operation ..... 183
Setting up ..... 183
Striking ..... 185
On/off switches, safety loop, and UV protection ..... 186
Allowable camera speeds with HMIs ..... 187
Electronic (square-wave) ballasts ..... 189
Installing an HMI lamp ..... 197
Metal halide arc lamps ..... 202

**CHAPTER 9 Fluorescent lights ..... 205**
Kino Flo lamps and ballasts ..... 208
Kino FLo systems ..... 209
Portable modular fixtures ..... 209
Kino Flo fixtures with remote ballasts ..... 214
Kino Flo self-contained light fixtures ..... 218
DMX512 control and addressing ..... 220
Lumapanels ..... 223
Some additional notes about fluorescent lights ..... 225

Effect of temperature ..... 225
Calculating power needs ..... 225

**CHAPTER 10 LED lights ..... 227**
There's a new kid in town ..... 227
Color rendering of LEDs and LED light fixtures ..... 228
LED fixtures ..... 234
Pads ..... 234
Small panels ..... 234
Larger panels ..... 240
Ring lights ..... 242
Color wash fixtures ..... 242
LED technology ..... 247

**CHAPTER 11 Lighting control: Control networks, moving lights, advanced devices, and computer applications in lighting ..... 251**
DMX512 ..... 252
DMX512 addressing ..... 253
DMX values and device personality ..... 256
Controllers ..... 261
Multiple DMX512 universes ..... 265
Running DMX512 cable ..... 265
Optical isolators and splitters ..... 270
Loss of signal ..... 271
Merger/combiner ..... 273
Wireless DMX ..... 274
Testing ..... 276
DMX: Past, present, and future ..... 278
Remote Device Management (RDM) ..... 279
Ethernet networks ..... 280
Advanced automated devices ..... 282
Moving lights (automated luminaires) ..... 282
Remote pan and tilt for conventional lights ..... 291
Media servers and video projectors for lighting effects ..... 293
Pixel-mapping systems ..... 294
Light plots ..... 296
Lighting with previsualization software ..... 299

**CHAPTER 12 Electricity ..... 301**
The fundamentals of electricity and electrical equations ..... 301
Volts (electromotive force) ..... 302
Amperes (current) ..... 302

Watts (power) ... 302
The power equation ... 303
Resistance and Ohm's law ... 305
Parallel and series circuits ... 308
How not to use electrical equations ... 312
Components of a safe power circuit ... 313
Control devices and polarity ... 313
Overcurrent protection ... 315
The current-carrying capacity of cable ... 316
Types of feeder cable ... 318
Equipment grounding ... 319
Types of distribution circuits ... 321
Direct current ... 322
Alternating current ... 323
Alternating current: Single-phase three-wire system ... 324
Three-phase, four-wire systems ... 327
System grounding ... 332

**CHAPTER 13 Distribution and dimming equipment ... 335**
Components of a distribution system ... 335
Main disconnect and overcurrent protection for feeders ... 336
Cam-Lok connectors ... 338
Lugs and buss bars ... 342
Mole pin connectors ... 343
Distribution boxes ... 344
Stage pin (Bates) connectors ... 347
Receptacle boxes ... 350
19-pin "Socapex" connectors and cable ... 353
Adapters ... 356
Electronic dimmer systems ... 357
Electronic dimmer circuit designs ... 359
Forward-phase control dimmers—SCR ... 360
Reverse-phase control dimmers ... 361
Sinewave dimmers ... 362
Strand CD80 dimmer packs ... 364
ETC Sensor dimmer system ... 371

**CHAPTER 14 Working with electrical power ... 375**
Sizing distribution conductors ... 375
Sizing phase conductors ... 375
Sizing neutral conductors ... 376

Sizing equipment grounding conductors ..... 376
Sizing grounding electrode and bonding conductors ..... 376
Line loss ..... 377
Causes of line loss ..... 377
Allowable voltage drop ..... 378
Mitigating line loss ..... 379
Cable size and other line loss calculations ..... 380
Simple line loss calculations ..... 384
Power problems from electronic loads ..... 385
Power factor ..... 386
Harmonic currents and effects on the neutral wire ..... 388
Measuring electricity ..... 389
Meter categories ..... 390
Voltage meters ..... 390
Circuit testers ..... 392
Measuring frequency (hertz rate) ..... 392
Measuring amperage ..... 393
Testing continuity and testing for shorts ..... 393
Wattmeter or power meter ..... 394
Electrical shocks and muscle freeze ..... 394

**CHAPTER 15 Electrical rigging ..... 397**
The role of the rigging gaffer ..... 397
Planning the rig ..... 398
Size and number of conductors ..... 399
Placement of distribution ..... 400
Rigging cable ..... 401
Identifying cable, labeling circuits ..... 402
Lacing cable ..... 403
Ventilating and separating runs ..... 404
Make first, break last ..... 404
Traffic areas ..... 404
Fire lanes ..... 405
Fall protection ..... 405
Root out bad contacts ..... 405
Waterfalls and cable drops ..... 405
Knots ..... 407
Strength of rope ..... 414
Rigging lights ..... 417
Weight-loading chain motors truss and pipe ..... 418

Testing ..... 419
Rigging lights and cable in aerial lifts ..... 421
Mounts ..... 421
Cabling ..... 422
Condor duty ..... 424
Paperwork ..... 425

**CHAPTER 16 Power sources ..... 427**
Batteries and inverters ..... 427
Battery chemistry and care ..... 427
Inverter systems ..... 431
120 V DC lead-acid battery packs ..... 432
Generators ..... 433
Putt-putts (portable Honda generators) ..... 433
AVR generators ..... 434
Honda EU inverter generators ..... 436
Troubleshooting putt-putts ..... 438
Full-size generators ..... 438
Generator placement ..... 444
Selecting a generator ..... 445
480 V Systems ..... 445
Utility power ..... 447
Line drops from utility power ..... 447
Tie-ins ..... 447
Approach protection ..... 448
Using available outlets ..... 448

**CHAPTER 17 Special circumstances and practices ..... 449**
Shooting on moving vehicles ..... 449
Poor man's process and other techniques ..... 450
Lighting in and around water ..... 451
Working with electricity around water and damp environments ..... 451
Underwater lighting ..... 457
The old drop-a-bulb-in-the-pool method ..... 457
Modern underwater fixtures ..... 458
Lighting matte photography ..... 461
Lighting the foreground ..... 462
High-speed photography and camera-synchronous strobes ..... 464

**CHAPTER 18 Specialty lighting equipment ..... 467**
Big guns ..... 467

SoftSun ... 467
Carbon arc lights ... 469
Lighting balloons ... 470
Lightning effects ... 473
Lightning strikes! ... 473
Control units ... 474
Power requirements ... 475
Xenon lights ... 477
Follow spots ... 479
Preparing the follow spot ... 481
Operating the follow spot ... 483
Black lights ... 484

**APPENDIX A Photometric calculations and tables ... 487**
Converting to foot-candles ... 487
Calculating field diameter ... 487
Calculating intensity ... 487

**APPENDIX B Lamp Tables ... 497**

**APPENDIX C Flicker-free frame rates ... 509**

**APPENDIX D Electrical tables ... 513**

**APPENDIX E IP and NEMA equipment ratings ... 517**
International protection ratings ... 517
Nema ratings ... 518

**APPENDIX F Equipment suppliers and manufacturers ... 519**

**APPENDIX G Lighting equipment order checklist ... 523**

**APPENDIX H Expendables checklist ... 531**

**APPENDIX I Gels and diffusions ... 537**

**Glossary** ... 549
**Index** ... 567
